Portal Management Studio

The screenshot shows the 'General' tab of a portal management interface. The page name is 'Happening'. The parent page is 'Happenings'. The partial URL is 'happening'. The page template is 'Happening'. There are two options for the form type: 'Advanced form' (highlighted with a red box) and 'Web Form', and 'Basic Form' (highlighted with a red box) and 'Entity Form'. The current form type is 'Happening - Edit'. The language is 'English' and the page is 'Published'.

Update or start fresh?

Spiller ingen rolle..

Ulrikke Akerbæk #ProCodeNoCodeUnite #PowerAddict
@UlrikkeAkerbk

Dear #PowerAppsPortals experts: Would you give a Portal created in 2017 a complete redesign or start from scratch on a fresh Portal app? Is there a way to be sure the old portals are up to date in all respects - not dragging along any baggage? #PowerPlatform #Portals

Redesign the old portal

30.8%

Start fresh

Replying to @UlrikkeAkerbk

You can upgrade solutions from UI, don't really need Microsoft support for that. All portals are same, so latest solutions is same as a new portal

PowerFX

The screenshot shows the PowerFX formula editor for a Text property. The formula bar contains the following code: `Right(Input.Text, Len(Input.Text) - Find("|", Substitute(Input.Text, " ", "|", Len(Input.Text) - Len(Substitute(Input.Text, " ", ""))))`. Below the formula bar, there is a visual representation of the formula's effect: an input field labeled "Input:" and a label below it. The label is a horizontal line with four circular handles, representing a text box with a vertical line through its center.

The screenshot shows the PowerFX formula editor for a Fill property. The formula bar contains the following code: `RGBA(RedSlider.Value, GreenSlider.Value, BlueSlider.Value, 100%)`. Below the formula bar, there is a visual representation of the formula's effect: a dark background with three horizontal sliders. The top slider is labeled "Red:" and has a yellow circular handle. The middle slider is labeled "Green:" and has a white circular handle. The bottom slider is labeled "Blue:" and has a white circular handle.

365.Training

<https://365.training/Courses>

The screenshot displays the 365 Training website interface. At the top, the logo '365training' is followed by navigation links: 'All Courses', 'Subscribe', 'Instructors', 'Ideas', 'About', and 'Login'. A left-hand navigation menu lists various course categories, with 'Power Apps Portals' highlighted in blue. The main content area is titled 'Power Apps Portals courses' and includes a search bar. Below this, a grid of course cards is shown. Each card features a 'New' badge, a representative image, the course title, a brief description, the instructor's name, and a price of \$249 with a 'View' button.

Course Title	Instructor	Price
EXPERIENCE POWER PLATFORM	Nick Doelman	\$249
POWER APPS PORTALS FIELD GUIDE	Nick Doelman	\$249
BUILDING POWER APPS PORTALS	Nick Doelman	\$249
POWER APPS PORTALS SECURITY DEEP DIVE	Nick Doelman	\$249
POWER APPS - ZERO TO PORTALS	Julie Yack	\$249
FALL INTO POWER APPS PORTALS	Group of experts	\$249
